- **For qualified education expenses paid for an eligible student for the first four years of higher education**
- **Qualified paid expenses include:**

- Be pursuing a degree or other recognized educational credential.
- Be enrolled at least half time for at least one academic period beginning in the tax year.
- Not have finished the first four years of higher education at the beginning of the tax year.

Maximum Amount – You can receive up to a \$2,500 credit per eligible student, which phases out if your modified adjusted gross income is over \$80,000 (\$130,000 for joint filers). For most students, the modified adjusted gross income is the adjusted gross income reported on line 11 of their tax return.

Taxpayer Identification Number (TIN) – The taxpayer and student, if different, must have a social security number (SSN) or other TIN that was issued by the due date of their tax return (including extensions). If the SSN is issued after the due date of the taxpayer or student, apply for a different TIN from the IRS after the due date the taxpayer cannot amend their return and claim the credit.

Eligible Educational Institution – A fully accredited college, university, trade school, or other postsecondary educational institution eligible to participate in a student aid program administered by the U.S. Department of Education is included.

Premium Tax Credit

Premium Tax Credit 

If you or a member of your family enrolls in health insurance through the Marketplace, you may be eligible for the premium tax credit, a refundable credit that helps eligible individuals and families pay for health insurance.

Advance Payments

During enrollment, the Marketplace determines if you're eligible for advance payments of the premium tax credit. If you're eligible, you can choose to have **ALL, SOME or NONE** of the advance payments for which you are eligible sent to your insurance company.

- ▶ **ALL:** the entire amount of your payments will be sent monthly to your insurance company
- ▶ **SOME:** a portion of your payments are paid in advance to your insurance company, and then you wait to receive the rest of the benefit of the premium tax credit for which you are eligible when you file your tax return
- ▶ **NONE:** you have nothing sent to your insurance company during the year, and wait to get all the benefit of the credit when you file your tax return

Eligibility

If you or a family member enrolls in health coverage through the Marketplace for a month that you or the family member was not eligible for non-Marketplace health coverage, you may be allowed the credit if you:

- Paid your share of Marketplace insurance premiums
- Have household income within certain limits
- Do not file a married filing separately return. There are exceptions to this rule for domestic abuse and spousal abandonment victims
- Cannot be claimed as a dependent by another person

You must file a federal tax return if either of these apply to you:

- Advance credit payments were made on your behalf to your insurance company
- You are claiming the premium tax credit

Failing to file your tax return will prevent you from getting the benefit of advance credit payments in future years.

Claiming and Reconciling the Credit

When you file your tax return, you will use Form 8962, Premium Tax Credit, to claim the credit and to reconcile the credit with the advance credit payments made for you and your family. To reconcile the credit, subtract the total of your advance credit payments from the amount of the premium tax credit computed on your tax return. The difference will change the amount of tax you owe or the amount of your federal refund.

Report life changes to the Marketplace

Reporting life changes such as changes to income or family size -- will help you avoid large differences between the advance credit payments made on your behalf and the amount of the premium tax credit you are allowed when you file your tax return.

Did You Know...

If you choose not to have advance credit payments made on your behalf, you will get the credit when you file your tax return.

This will lower your tax balance due and could increase your refund.

IRC 6417 - Elective payment elections

- **With Elective Pay, tax-exempt and governmental entities that do not owe Federal income taxes will, for the first time, be able to receive a payment equal to the full value of tax credits for building qualifying clean energy projects or making qualifying investments.**
- **Elective Payment allows entities to get their payment if they meet the requirements for both elective pay and the underlying tax credit.**
- **By filing a return and using Elective Payment, these entities can receive tax-free cash payments from the IRS for clean energy tax credits earned, so long as all requirements are met, including a pre-filing registration requirement.**
- **Applicable entities can choose Elective Payment for 12 of the IRA's tax credits.**

Elective Payment entities include:

Tax-exempt organizations under § 501(a), including § 501(c) and § 501(d) organizations

States and political subdivisions such as local governments

Indian tribal governments

US territory governments and political subdivisions

Agencies and instrumentalities of state, local, tribal, and territorial governments

Alaska Native Corporations

The Tennessee Valley Authority

Rural electric co-operatives

Online processes

IRS successfully launched IRS Energy Credits Online (IRS ECO) in November 2023.

- **IRS ECO provides an electronic way for users to register for a Clean Vehicle (CV) or Elective Payment/Transfer Election (EP/TE) account**
- **Users can submit CV Time-of-Sale reports, request advance payments, and register facilities and properties**

As of September 2024:

More than **2,300** entities have requested more than **80,000** registration numbers for projects or facilities located across all 50 states plus territories.

The vast majority of these projects are pursuing transferability.

A wide variety of the credits are being used, but most registrations are related to solar and wind projects using the investment or production tax credit.

In addition, more than 1,200 organizations have submitted projects or facilities pursuing elective pay, including submissions from more than 500 state and local governments.

The IRS has issued more than **70,000** registration numbers.

Elective payment elections

What will I need to do to qualify for elective payment?

- 1. Identify and pursue the qualifying project or activity: You will need to know what applicable credit you intend to earn and use elective pay for**
- 2. Determine your tax year**
- 3. Placed in service: The applicable credit property must be placed in service BEFORE a registration number will be issued**
- 4. Complete pre-filing registration with the IRS**

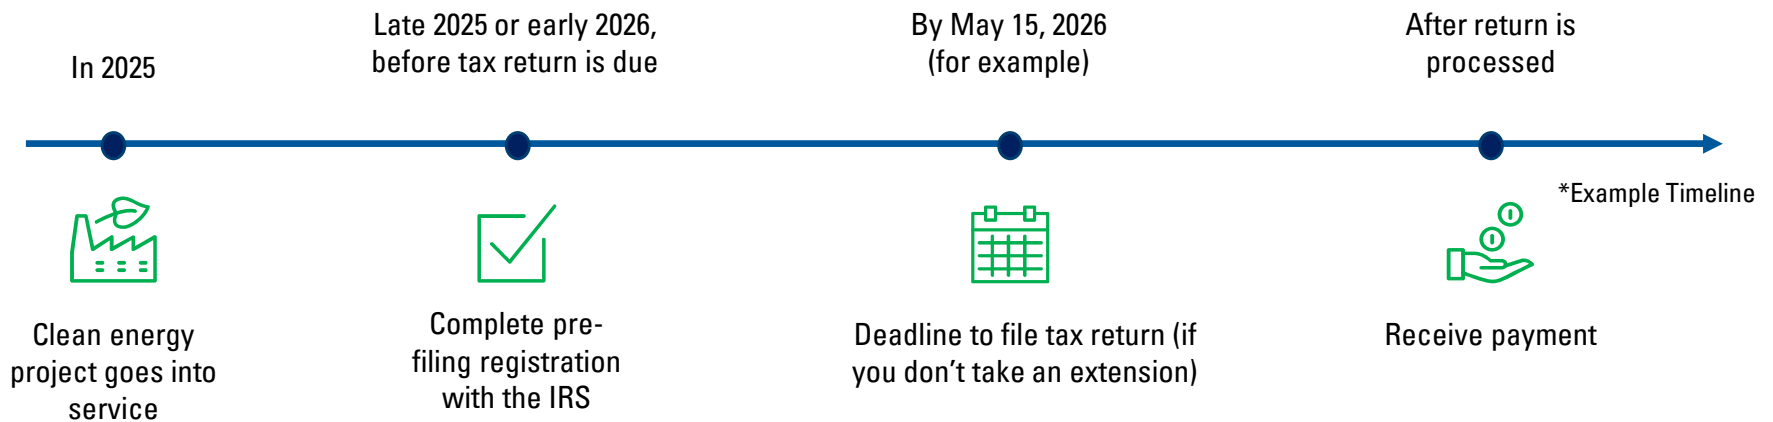

- 5. Satisfy all eligibility requirements for the tax credit and any applicable bonus credits, if applicable, for a given tax year**

You will need the documentation necessary to properly substantiate any underlying tax credit, including if bonus amounts increased the credit

- 6. File the required annual tax return by the due date (or extended due date) and make a valid elective payment election.**

Elective payment elections

Local Government Project Placed Into Service in 2025

A local government that makes a clean energy investment that qualifies for an applicable credit can file an annual tax return (via Form 990-T) with the IRS to claim elective pay for the full value of the applicable credit, as long as it meets all of the requirements, including a pre-filing registration requirement.

As the local government would not owe other federal income tax, the IRS would then make a refund payment in the amount of the credit to the local government.

IRC 6418: Transfer Election

Provision allows for eligible entities to make an election to transfer all (or the portion specified) of an eligible credit determined to an unrelated taxpayer for a cash payment, which is not included in gross income.

- **The unrelated taxpayer (transferee) is then treated as the taxpayer for purposes of the Code with respect to the transferred credit, but it is not allowed to deduct the cash payment.**
- **Other tax attributes with respect to the property, such as depreciation, are not transferable under section 6418.**
- **Applicable entities can choose Transfer Election for 13 of the IRA's tax credits.**
